Keywords: List of up to eight key words that describe the paper (optional).

Funding Source/Alternate Affiliations: If research was done at a different university, or there is a funding source requiring acknowledgement, please detail it here (optional).

Body of Extended Abstract: Text should appear in 11-point Times or equivalent, single-spaced, with one-inch or 3-cm margins all around. The body of the paper should be right and left justified. Two-page extended abstracts in the post-conference record will appear just as submitted. Please include any/all contact information to be electronically archived with the two-page extended abstract; at a minimum author name(s) and at least one means of contact is requested. The extended abstract begins on this page (there is no separate title page).

Figures: Figures placed within the text should be centered and have the same vertical margins as the text.

You do not need to use captions in the extended abstract form.

Headings: Headings are not required. You can use bolded text ending in a colon to draw attention to sections of the body if you choose.

Lack of Notes: Do not use footnotes or end notes. Keep all content in the body text.

Intentionally Blank: This second page is left intentionally blank.

References

References should start on a new page and follow the reference and citation style of the *System Dynamics Review*. Include the complete set of references you would use for the full paper.
